Dear Cheryl,

Thank you for the letter, it was great hearing from you and I of course was very pleased to be part of making CYBERTHON the great event that it was. Having participated in many high-tech happenings this certainly ranks in book as one of the all-time great events anywhere. And yes, if and when you find the next "great thing to do" please let me know as with all my resources and event-coordination skills I would be pleased to contribute to helping in 'breathing life into it.'

A new hologram has appeared, which is one of the more beautiful images that I have seen, and I'm happy to be able to give you a copy in the spirit of CYBERTHON and keeping up with new technology resources and making sure that information is where it should be.

On that note, I thank you again for bringing me in as a CYBERTHON exhibitor, and look forward to the next great thing,

regards,

Louis M. Brill
